- Native.js
- Python
- Java
- MongoDB
- Bootstrap
- Dsa
- sql,mysql
- c , c++
- figma (Ai tool for web development)

## LANGUAGES

- English (Fluent)
- Telugu (Fluent)

## WORK EXPERIENCE

### Web development

- Web Developer
- Proficient in Web Development | Experienced in Building Functional Applications
- Portfolio Website: Developed a personal portfolio showcasing my skills, projects, and achievements using modern web development practices.
- iNotebook Website: Created an interactive platform where users can read news articles. Implemented features for real-time news updates and a user-friendly interface.
- Typing Application: Designed and developed a typing app that displays the number of words typed per minute. Added functionalities to convert text between lower and upper case and copy text efficiently.

### Figma

- Web Designer & Front-End Developer
- Proficient in Figma | Expert in Website and Webpage Development
- Developed and designed visually appealing and user-friendly websites and web pages using Figma.
- Utilized Figma to create wireframes, mockups, and prototypes, ensuring a smooth transition from design to development.
- Collaborated effectively with cross-functional teams to deliver high-quality, responsive web designs that meet client specifications.
- Leveraged Figma's design systems and components to maintain consistency and streamline the design process.
- Applied best practices in UX/UI design to enhance user experience and engagement

### Present

- Currently engaged in web development, building high-quality websites using various coding languages.
- Developed applications including:
- Portfolio Website: Showcasing skills, projects, and achievements.
- iNotebook Website: An interactive platform for reading news articles with real-time updates.
- Typing Application: A tool that measures typing speed, converts text cases, and copies text efficiently.
- Eager to gain hands-on experience through an internship to further enhance web development skills and industry knowledge.
